

I enjoy XM Radio. I pay for it the same as cable TV. It is nice to be able to pick the type of music I feel in the mood for and not have to listen to 50 commercials every 2 to 3 minutes, Why would you want to stop that for the people who pay for the service.

I think the Laws of the UNited States are overstepping the boundries of what right and wrong. LEave XM Radio alone and go catch the bad guys.
